Configuring Macintosh OS 8

Configuring the Modem

From the *Assistants* folder, double-click **Internet Assistant Wizard**. Click **Update**.

Click the **Right Arrow**. Click **Add Internet Connection**. Click the **Right Arrow**.

In the *What would you like to name this configuration* section, type **naspa**.

If necessary, click **Modem**. Click the **Right Arrow**.

In the *Which modem are you using?* section, click the appropriate modem type.

In the *Port* section, click the down arrow and select the appropriate port.

In the *Does your phone line use tone or pulse?* section, click **Tone**. Click the **Right Arrow**.

Type the appropriate phone number.

Configuring Dialer

In the *What name do you use with this service?* section, type **your userid**.

In the *What is your password?* section, type **your password**. Click the **Right Arrow**.

Click **NO**. Click the **Right Arrow**. Click the **Right Arrow** again, bypassing DNS information.

In the *What is the e-mail address for this configuration* section, type **userid@naspa.net**.

In the *What is the e-mail password for this configuration* section, type your **password**. Click the **Right Arrow**.

In the *What is the e-mail account for this configuration* section, type **youruserid@naspa.net**

In the *What is the e-mail host for this configuration* section, type **mail.naspa.net**. Click the **Right Arrow**.

In the *What is the news group host for this configuration* section, type **news.naspa.net**. Click the **Right Arrow**.

Click **Go Ahead**. You will connect to the Internet now.

Technical Support

Any Technical Support questions can be directed to 1(877) 930-6761. Technical Support is available 24 hours a day, 7 days a week. Email support is also available at helpdesk@naspa.net.
